

AUDIO & VIDEO

Sanctuary

Our Sanctuary has fixed microphones in the pulpit and lectern. We have several handheld and lavalier wireless microphones. We have a low definition camera that allows us to record worship services and to televise the worship service into the Fellowship Hall.

Fellowship Hall

Our Fellowship Hall has two large LCD televisions that display the same image. We can project to these devices from a HDMI output. We have Apple TV and a DVD play for these monitors. We have a small, portable sound system that serves the Fellowship Hall. In the back of the Fellowship Hall we have a monitor for the sanctuary.

Mobile

We have two small, portable sound systems. We also have two projectors and screens. These can be used individually or set up to mirror one another.

The Cove

Our newly remodeled youth space, The Cove, has mirroring, wall mounted televisions that are mirrored to project by HDMI or through Apple TV.

Classrooms

Various classrooms are equipped with televisions and DVD players.
